

Information about SAL / SCC-preparation S19

SALs for VIE, GRZ, INN, KLU, LNZ and SZG were sent out on Thursday, October 25th.

Information regarding the feedback to the SALs and useful preparation for the IATA conference in MAD:

All O and H data lines shown on the SAL will be automatically put on the waitlist for possible later improvement. Therefore SCR-reply with code P is NOT necessary!

If you do not want to be placed on the waitlist (if you can accept the offered timings) please send us a SCR-reply with code A.

If you already know that your slot-requirements have changed, send us an SCR with your updated actual requirements. We will have your messages in our system readily available for discussions during the IATA conference. This would optimize the coordination process for both of us.

Please also send us an SCR if you have any deletions which are already known.

Further details about post-SAL activities can be found on our homepage www.slots-austria.com / download section.

All of the above should reach us by Friday, November 09th.

To arrange appointments, please use the IATA Conference Appointments Calendar.

In Madrid you will find us in our joint meeting room with the Swiss coordination – Salon Bonn (Ground Level).

We are looking forward to seeing you in Madrid.
